## Physical Security

Our Netherlands Data Centers in Amsterdam is protected against physical intrusion and is equipped with sophisticated multi-level access control systems, including CCTV cameras, biometric access, and ID check systems.

## Top Internet Carriers

A crucial feature of a data center is its access to the main channels of top internet carriers to ensure fast network performance and high network availability. Our Netherlands Data Center is connected with the 3 major Global Carriers: CenturyLink, Cogent and Telia.

## Instant Provisioning Virtual Servers

Our Virtualization infrastructure has been expanded so that the Flexi VPS product is available for new deployments in The Netherlands.

## Pre-built & Custom Dedicated Servers

We maintain a large capacity of DELL Servers in our Netherlands Data Center in order to

fulfill orders of any kind. Pre-built Dedicated Servers will be provisioned within 2 hours through our Smart Provisioning deployment system.

## Preferred Location for Giant Industries

The Netherlands, and particularly Amsterdam, has been for many years the most preferred choice of Hosting due to its key geographical location and the country's legislation. Nowadays it's among the top datacenter locations for hosting by Forex brokers, Gambling companies and the Adult Network.
